8 May 2019

Dear Parent/Carer

CLEAN AIR CLUB

Starting Tuesday 14 May, we will be running a Clean Air Club. The club will start at 3.00pm and finish at 3.45pm and will run initially for 7 weeks, in the Qube, Powell Building. There will be no charge for this activity.

As a school we feel that it is extremely important that children gain an understanding about the environment in which they live. All Saints will be looking in detail at the causes of air pollution, effects pollution could have on their health and how they could help to reduce air pollution and persuade others to do the same. We would like a team of mini scientists to help us on this journey by joining the Clean Air Club!

The Clean Air Club will run every Tuesday from 14th May - 25th June. The club will include: an art project where children will be designing large banners and posters about clean air, using the computers to create leaflets to hand out informing people about what air pollution is, why it is damaging the environment and what people can do to reduce the damaging air pollution, the last three sessions will focus on a drama performance to convey the key messages about clean air which will be created by the children and performed at the All Saints Got Talent Street Party!

This will be a hands on, creative, fun and knowledgeable experience for children to be involved in. It will be a fantastic opportunity for children to develop their knowledge and understanding about the damaging effects of air pollution for themselves and everyone around them and how they can help their local environment produce cleaner air!

If your child is interested in attending the club, please sign the slip below and return to school as soon as possible. There are a limited number of places available, therefore places will be on a first come, first served basis.

The children allocated a place will receive a reply slip.

Yours sincerely

Miss Wakefield
Year 5 Teacher
